

The Clear Choice for Indoor Air Quality

An ever-increasing concern in today's homes is Indoor Air Quality (IAQ). You don't need to be an expert to see why. The ducting in your HVAC system may deliver the correct temperature of air to your family, but that heat or coolness may come accompanied by noise, mold and allergens. While duct systems are not as visible as flooring or wall surfaces, they are just as critical to maintaining your home's climate. To ensure that your family is getting the safe, comfortable and quiet IAQ you desire, Thermaflex® offers our EverClean™ premium flexible ducting.

The only thing that grows in EverClean™ is its value

Unlike cheap flexible ductwork, EverClean harnesses the power of anti-microbial properties to resist the growth of mold and mildew in its ductwork, practically eliminating air pollution.

EverClean incorporates the strength of Owens Corning insulation (R-8 value) to maintain consistent, comfortable temperatures. The insulation also absorbs the noise of mechanical fans and vibrations to allow your family to live in a calm and soothing environment. EverClean is easy to install and has fewer callbacks than other ducts.

No product comes close to what EverClean offers. And we back it up with a full 10-Year parts and labor warranty.

EverClean helps your family breathe easier

- ✓ 10-Year warranty to the original homeowner
- ✓ Anti-microbial properties resist and inhibit the growth of mold and mildew, improving indoor air quality (IAQ)
- ✓ High-carbon, coated spring steel wire resists rust and corrosion
- ✓ More efficient air flow reduces energy costs (ducting won't sag, crimp or leak)
- ✓ Duct components are flame-resistant and self-extinguishing
- ✓ Heavy woven fiberglass core reduces noise
- ✓ Heavy-grade materials won't tear, unravel or puncture
- ✓ Outperforms traditional polyester products
- ✓ Improves resale value of any home
- ✓ UL listed and NFPA 90A-90B qualified

Coated, woven
fiberglass liner

Corrosion-resistant
coating

It's good for your contractor too

HVAC contractors love EverClean because it's easier to install. It has greater flexibility than most flexible ducts, but it's thicker as well, making tears or punctures impossible. Easier installation of a higher-quality product means fewer call backs, maximizing your time and profitability.

10-Year Pro Warranty

Thermaflex warrants that EverClean™ insulated ducting will be free from defects in materials and factory workmanship for 10 years. This warranty covers the flexible duct, materials and labor. This warranty applies only to ducts properly installed in accordance to published written installation instruction and under conditions specified in published performance data. Thermaflex shall not be liable to buyer or any third party for any special, secondary, incidental or consequential damages, no matter how they arise.
